Madurai, Tamil Nadu, India

EDUCATION	KLN College of Engineering <i>B.Tech in Information Technology CGPA: 8.2/10</i> • Relevant Coursework: Data Structures, Database Management Systems (DBMS), Machine Learning, Artificial Intelligence, Python Programming.	Tamil Nadu, India 2024 – 2028
EXPERIENCE	Elysium Pro Madurai, India • Acquired practical knowledge of Machine Learning and Artificial Intelligence through hands-on training. • Performed data preprocessing, feature engineering, and model training using real-world datasets. • Developed machine learning projects including House Price Prediction and Student Performance Prediction. • Utilized Python, Pandas, NumPy, Scikit-learn, and Jupyter Notebook for data analysis and model development.	May 2026 – June 2026
PROJECTS	Iris Flower Classification <i>Python, Pandas, NumPy</i> • Developed a machine learning model to classify iris flower species based on sepal and petal measurements. • Performed data cleaning, label encoding, and train-test splitting for effective model training. • Achieved 95% classification accuracy. House Price Prediction <i>Python, Pandas, NumPy, Scikit-learn, Jupyter Notebook</i> • Built a regression model to predict house prices using features such as area, bedrooms, and location. • Conducted data preprocessing, feature engineering, and model evaluation using regression algorithms. • Achieved an R^2 score above 0.85, demonstrating reliable prediction performance. Student Performance Prediction <i>Python, Pandas, NumPy, Scikit-learn, Jupyter Notebook</i> • Developed a predictive model to analyze student academic performance using machine learning techniques. • Performed data preprocessing and feature selection to improve model effectiveness. • Identified key factors influencing student academic performance and achieved accurate predictions.	

CERTIFICATIONS	• User Experience (UX) Design – LearnVern	July 2026
	• Artificial Intelligence – Great Learning	May 2026
	• Data Analytics – NoviTech	Jun 2025 – Jul 2025
	• Java Training – IIT Spoken Tutorial	Apr 2026
	• Artificial Intelligence Internship Certificate – Elysium Group of Companies	May 2026 – Jun 2026
	• Process Mining Rising Star – Business – Celonis Academy	Apr 2026
	• Introduction to Computer Training – IIT Spoken Tutorial	Mar 2025

WORKSHOPS	• Digital Marketing Workshop – NSDC	Dec 2025
	• UI/UX Workshop – NSDC	Dec 2025
	• Data Analytics Workshop – NSDC	Dec 2025

SKILLS	Programming Languages: Python, Java, C, C++, SQL, HTML, CSS.	
	Libraries & Frameworks: NumPy, Pandas, Scikit-learn.	
	Tools & Platforms: Jupyter Notebook, VS Code, Microsoft Excel.	
	Technical Skills: Data Analysis, Data Preprocessing, Machine Learning, Deep Learning, Data Visualization.	
	Soft Skills: Communication, Teamwork, Time Management.	

Languages: Tamil, English.
